PERSONAL INFORMATION

I am a Second-Year undergraduate student at Sheffield Hallam University studying BSc (Hons) Computer Science for Games. I am looking to work in the Games Industry in various fields, predominantly as a Software Engineer and Gameplay Programmer. I am a diligent worker who is also very confident, and I find it easy to approach and engage in work and important conversations with people. I always strive to be punctual and I have great attendance, throughout my five (5) years in secondary school, my first year in college and second year in sixth form. I am a graduate of NCS (with a signed Certificate by the Prime Minister) which has helped me build a lot of skills including communication, confidence, creativity, leadership, responsibility, project planning, time management and initiative. This has helped me to learn how to work effectively with others and how vital it is to listen to other people. I am keen to learn new skills at the same time as gaining practical experience. My hobbies are a variety of sports, especially football; I also love sporting games. I also work out at the gym regularly.

EDUCATION & CERTIFICATES

- PHOENIX COLLEGIATE - Final GCSE results were (Subjects and Grades): Mathematics (7), English Language (5), English Literature (8), Biology (A, 7), Chemistry (A, 7), Physics (A, 7), Computer Science (B, 6), Spanish (B, 6), History (A*, 8.5)
